SUBSTANTIATION

Usually a receipt is required showing the item purchased, the amount, the date and the name of the supplier is required to claim a tax deduction for a work-related expense. Private use may need to be apportioned. For more information refer to our wage earners booklet in the Freebies section of the BAN TACS web site: www.bantacs.com.au/booklets/Wage Earners Booklet.pdf. Many of the following expenses require a one-month diary or similar record. You can purchase all the spreadsheet templates you need to keep these records for just \$5.95 from the BAN TACS website Shopping section: http://www.bantacs.com.au/shop-2/diary-template/.

ATO Bullying – The ATO are making all sorts of demands now to try and deny tax deductions. Despite there being no basis of law for these extra requirements we all know how difficult it can be to fight them so we strongly recommend the following additional records. A letter from your employer saying that you are required to incur the expense, don't have safe storage at work etc depending on your claim. There is a template in the checklist section of our website that will cover most situations.

The ATO is no longer satisfied with a receipt to show expenses they now want a bank statement to show that it was you that actually incurred the expense and have even been know to argue that if your spouse bought the item for you then it is not deductible because it wasn't you who incurred the expense. So use a credit or debit card, not cash.

Laundry – You can claim 50 cents per mixed load and \$1 per full load of qualifying uniforms or protective clothing, up to \$150 per year. Simply take your average loads per week and multiply it by the number of weeks you worked.

Less Than \$300 – If you claim less than \$300 in work related expenses such as self-education, tools, uniforms, protective items, stationery, union fees, etc. you do not need to substantiate your claim with receipts. Any claim you make for motor vehicle expenses or travel costs (includes tolls and parking) is not counted towards the \$300 limit.

Less Than \$10 – If each individual expense is less than \$10 and the total of all such expenses does not exceed \$200 you do not need to keep a receipt but must have a diary entry showing the name of the supplier, date, amount and a description of the purchase. This also applies when you can't get a receipt such as parking meters.

Allowances – Each year the ATO produces a list of what it considers reasonable travel allowances. If your employer pays you an allowance and you do not claim more than the amount listed by the ATO as reasonable you do not have to substantiate with receipts the amount you incurred. But you do have to have incurred the expense. A diary entry of your food expenses is sufficient. If you are away from home for more than 5 nights you will need to keep a travel diary of what you did each day. You can still claim up to the ATO reasonable amount even if your employer paid you less as long as it was a bona fide allowance (i.e. not just \$5 per night but sufficient to live off). The ATO have up the anti on this and changed the wording of their 2018 ruling. We strongly advise you to keep all receipts and pay for them on credit or debit card.

The ATO also releases what it considers a reasonable overtime meal allowance each year. Again, you can claim up to this amount even if your employer pays you less but you must be paid the allowance under an award.

Electricity – The ATO allows you 45 cents per hour for every hour you are working at home in an office separate from the rest of the family. This covers electricity and maintenance on the room. Keep the diary for 1 month.

Motor Vehicle – By keeping a diary for one month each year you can claim up to 5,000 kilometers per vehicle you own. If you own a car together with another person and it is only their name on the registration papers they can complete a declaration of joint ownership so you can claim it. You are also considered to be the owner of a car even if it is registered in the name of another family member but you are the one who pays all the expenses relating to it.

Telephone – To claim calls from your home phone, go through one month's itemised account, and work out the numbers that are work related. This percentage of work related calls can be applied to the mobile and STD calls in the other months. Local calls can be apportioned by keeping a diary for one month noting the ratio of private to work related local calls. Line rental can also be apportioned.

Mobile Phones – Analyse one month's statement and apply its ratio of work to private calls to the rest of the year. If your statement is not detailed print a month's calls off your phone from the recent calls section.

Commissioner's Discretion – If you have sufficient evidence that you have incurred the expense and would be have been entitled to a deduction if you had a receipt then the ATO must still allow you the deduction but it needs to be beyond doubt that you incurred the expense.

Work related Travel – Wage earners can claim their motor vehicle expenses when they meet the substantiation requirements and they travel as follows:

1) Bulky Equipment – Home to work travel is claimable if there is no safe storage at work and as a result you transport bulky equipment between home and work. Safe storage is defined as similar to your own personal locker. Therefore, a container on CONFIDENTIAL

Rental Property Schedule 7 of 9

a building site to which all and sundry has a key is not safe storage. Case S29 prescribed more than 20kg was bulky. Tax pack gives the example of a ladder and drum kit not because they weigh more than 20kg but because they fulfill the difficulty to carry side of bulky.

2) Abnormal workplace, this is defined in Tax pack as:

From your normal workplace to an alternative workplace – for example, a client's premises – while still on duty and back to your normal workplace or directly home. From your home to an alternative workplace for work purposes and then to your normal workplace or directly home.

This includes being sent to another branch or shop to relieve providing you were not employed predominantly to relieve. It covers seminars and visits to customers. It also includes work related tasks performed on the way home or to work but, note MT 2027, the task cannot be insignificant such as dropping off the mail. But if you have to travel out of your way to drop off the mail you can claim for this extra distance. For more refer TD 96/42 & TD 96/43.

- 3) Between Jobs note this includes travel from home when home is the base of operations or work begins there. Home can be considered a base of employment if employment related duties have begun before leaving there, providing those employment related duties did not begin merely for the convenience of the taxpayer.
- 4) Itinerant work Your job involves travelling to more than one place of work before returning home.
